

BM PRO

Key Features

-  7-stage charger with adjustable output
-  Ability to charge multiple battery chemistries
-  LCD display shows charge progress
-  Overload and reverse connection protection
-  Durable casing
-  Large clamps for easy battery connection
-  Capable of charging battery sizes 50-300Ah and up to 500Ah (float/trickle)

Battery Charge25

BM PRO's BatteryCharge25 is an automatic battery charger with seven charge states designed to increase your battery's life and performance. Depending on the size of the battery, output current is adjustable to 5, 15 or 25 Amps and is compatible with all 12Volt Lead Acid (AGM, Gel, Calcium, Wet) and LiFePO4 Lithium batteries. The BatteryCharge25 is ideal to service your car, caravan, bike, truck or boat battery charging needs.

Equipped with short-circuit, over-temperature and overload protection, the BatteryCharge25 has a large LCD display with indicators to let you know the charge progress of your battery. The BatteryCharge25 can also be used in power supply mode when not charging your battery

Specifications

Output	5/15/25 Amps
Input	240V, 50Hz
Battery Size	60 - 800Ah
Battery Type	Lead Acid, LiFePO4
battery Chemistry	AGM, Gel, Calcium or Wet, LiFePO4
Charger Type	Multi-stage
Power Supply Mode	12V
