

Key Features

-  Multi-stage charger with adjustable output
-  Ability to charge multiple battery chemistries
-  LCD display shows charge progress
-  Overload and reverse connection protection
-  Durable casing
-  Large clamps for easy battery connection
-  Capable of charging battery sizes 12-120Ah

Specifications

Output	0.9/3.0/4.0 Amps
Input	240V, 50Hz
Battery Size	12-120 Ah
Battery Type	Lead Acid, LiFePO4
battery Chemistry	AGM, Gel, Calcium or Wet, LiFePO4
Charger Type	Multi-stage
Power Supply Mode	12V

BatteryCharge4

BM PRO's BatteryCharge4 is an automatic battery charger with eight charge states (including pulse and trickle charge modes), designed to increase your battery's life and performance. Adjustable to 0.9, 3 or 4 Amps and compatible with all 6 and 12 Volt Lead Acid (AGM, Gel, Calcium, Wet) and LiFePO4 Lithium batteries - the BatteryCharge4 is ideal to service your car, caravan, bike, boat or spare battery charging needs.

Equipped with short-circuit, over-temperature and overload protection, the BatteryCharge4 has a large LCD display with indicators to let you know the charge progress of your battery.
